

## **HIV and AIDS Prevention Summit**

The National HIV and AIDS Prevention Summit will be held on 23 – 25 May, 2007 at the Kenya School of Monetary Studies in Nairobi.

Along with our partners in this important event including the Ministry of Health/National AIDS/STI Control Program (NAS COP), UN family of agencies, U.S. government agencies responsible for the President's Emergency Plan for AIDS Relief (PEPFAR), and Britain's Department for International Development, we look forward to your participation in the summit. This Prevention Summit is being designed as an opportunity to hear from local and international experts about the state-of-the-art in behavioural interventions to interrupt sexual transmission of HIV, to examine current prevention work in Kenya, and to chart the most effective way forward in reinvigorating the vital role of prevention in the overall response to the epidemic.

It is our expectation that the deliberations and recommendations from the summit will form a valuable contribution to the Joint AIDS Programme Review (JAPR) and will help inform priorities and allocation of prevention resources by the Government of Kenya, PEPFAR and other partners.
